

# HOW TO CHALK BOX™ KIT

## FARMHOUSE WREATH

### Included in your Chalk Box™ kit:

**Chalk Couture™ Transfer:** Farmhouse Wreath

**Chalkology™ Paste Singles:** Black Velvet, Meadow, Sage, Candy Apple

**Surface:** Couture Boutique™ Board Odette Black Frame (White, 6" x 18")

### Additional supplies needed:

Fuzzing Cloth	Mini Squeegee
Multi-Tool	Transfer Trimmers
Small Squeegee	Permanent Marker

### Follow these instructions to complete the Chalk Box™ project:

1. Prepare your board by wiping it clean of any debris or dust.
2. Prepare your Chalk Transfer™ design by removing it from the packaging and cut apart the individual elements. Label the backer papers with marker to correspond with the image to expedite cleanup.
3. Remove the backers from the Transfer screens and “fuzz” each element to gentle the adhesive by sticking the adhesive side to the Fuzzing Cloth to pick up a bit of lint before applying it to your board.
4. Position the element “FARMH” on the left side of the board in the middle. Smooth it down to adhere, ensuring there are no bubbles.
5. Position the element “USE” on the right side of the board in the middle; lined up with the “FARMH” element. Make sure to leave space for the wreath that serves as the “O” element.
6. Prepare your Chalkology™ Paste by kneading the Paste Single packets, tearing off corners, and squeezing desired amounts onto dishes or other palette surfaces.
7. Use a generous amount of Black Velvet Chalkology™ Paste on the Small Squeegee and smooth it over the word elements. Peel the Transfer elements off of the board and clean with water. Allow layer to dry.
8. Place the vine wreath on your board positioned as an “O” between the “FARMH” and “USE” elements. Smooth Meadow Chalkology™ Paste across the wreath element using the Mini Squeegee. Peel and clean with water. Allow layer to dry.
9. Position the berry wreath on your board over the vines. Smooth Sage Chalkology™ Paste across the wreath element using a clean Mini Squeegee. Peel and clean with water.
10. Position the bird element on the right side of the “M” or wherever you desire. Smooth Candy Apple Chalkology™ Paste across the bird element using a Multi-Tool. Peel and clean with water.
11. After all Transfer elements are thoroughly clean, lay them flat to dry sticky side up.
12. Once the elements are completely dry, reapply the backer and store flat.
