

# HOW TO CREEP IT REAL

## CLUB COUTURE™ PROJECT

RELEASED SEPTEMBER 2019

### Supplies Needed

**Club Couture™ Transfer:** Creep It Real

**Chalkology™ Paste Singles:** Meadow, Orange Peel, Black Velvet

**Tools:** Small Squeegee, Multi-Tool, Transfer Trimmers, Fuzzing Cloth, Self-Healing Work Mat, and permanent marker

**Surface:** Sylvie Black Frame (White, 9" x 12")

### Color and Placement for Club Couture™: Creep It Real

1. Bats: Meadow
2. Accents: Orange Peel
3. Words: Black Velvet

### Follow these instructions to complete the Club Couture™ project:

1. Prepare your Chalk Transfer™ by removing it from the packaging.
2. When you remove the backer from the Transfer screen, be sure to “fuzz” the Transfer to gentle the adhesive by sticking the adhesive screen to a Fuzzing Cloth or terry cloth towel to pick up a bit of lint before applying it to your board.
3. Position your Transfer in the center and smooth to adhere to your surface, ensuring there are no bubbles.
4. Prepare your Chalkology™ Paste by kneading the packet, tearing off corners, and squeezing desired amounts onto dish or other palette surface. Stir paste if using 3 US fl. oz. jar.
5. Use a generous amount of Chalkology™ Paste on the Small Squeegee or Multi-Tool and smooth it over the Transfer (see color and placement suggestions).
6. Once the screen portion of the design is completely covered, squeegee the excess paste off as evenly as possible and scrape unused paste back into the jar or palette. The more excess paste you remove, the better the result.
7. Carefully peel back the Transfer where you have spread paste before it dries.

SEPTEMBER CLUB COUTURE TRANSFER:  
CREEP IT REAL

8. Repeat with other paste colors and elements of the design (bats, accents, and words). Use the “paste and pull” method for the word area, as needed (spread paste and carefully peel the Transfer down as you go, making sure the paste doesn’t dry on the Transfer).
9. Carefully remove the remainder of the Transfer and immediately put it in water to clean thoroughly. Once clean, let dry with sticky side up.
10. Once the Transfer is dry, reapply the backer and store flat.
