

HOW TO HAPPY VALENTINE'S DAY

CLUB COUTURE™ PROJECT

RELEASED JANUARY 2020

Supplies Needed

Club Couture™ Transfer: Happy Valentine's Day

Chalkology™ Paste Singles: Candy Apple, Couture Teal, Peony

Tools: Small Squeegee, Mini Squeegee, Transfer Trimmers, Fuzzing Cloth

Surface: Pallet Sign (9" x 12")

Color and Placement for Club Couture™: Happy Valentine's Day

1. Large heart: Candy Apple
2. Small hearts: Candy Apple, Couture Teal, and Peony

Follow these instructions to complete the Club Couture™ project:

1. Prepare your Chalk Transfer™ design by removing it from the packaging and cut apart the individual elements.
2. When you remove the backer from the Transfer screen, be sure to "fuzz" each element to gentle the adhesive by sticking the adhesive screen to a Fuzzing Cloth or terry cloth towel to pick up a bit of lint before applying it to your board.
3. Position your first Transfer element in the middle of the Pallet Sign and smooth to adhere, ensuring there are no bubbles.
4. Prepare your Chalkology™ Paste by kneading the packets, tearing off corners, and squeezing desired amounts onto dish or other palette surface. Stir paste if using 3 US fl. oz. jars.
5. Use a generous amount of Chalkology™ Paste on the Small Squeegee and smooth it over the Transfer (see color and placement suggestions above).
6. Once the screen portion of the design is completely covered, squeegee the excess paste off as evenly as possible and scrape unused paste back into the jar or palette. The more excess paste you remove, the better the result.
7. Carefully peel back the Transfer before the paste dries and immediately put it in water to clean thoroughly.
8. Repeat these basic techniques with candy hearts as desired. Allow sufficient dry time of your surface (or use a hair dryer to speed drying) before layering elements. We recommend about eight hearts scattered in the corners of the design.
9. After completing the heart designs, carefully peel back the Transfer elements and immediately put them in water to clean thoroughly. Dry sticky side up.
10. When Transfer elements are clean and dry, reapply all backers and store flat.
