

# HOW TO: *Wild & Free*

## CLUB COUTURE™ PROJECT

RELEASED MARCH 2021

### Supplies Needed

**Club Couture™ Transfer:** Wild & Free

**Surface:** Double-Sided Box Frame Frame  
(9" × 12") (item S203106)

**Chalkology™ Paste Singles:** Guava, Sage, Tide

**Tools:** Mini Squeegee, Multi-Tool, Color Trays,  
Fuzzing Cloth, Quick Dry Tool

### Color and Placement Suggestions

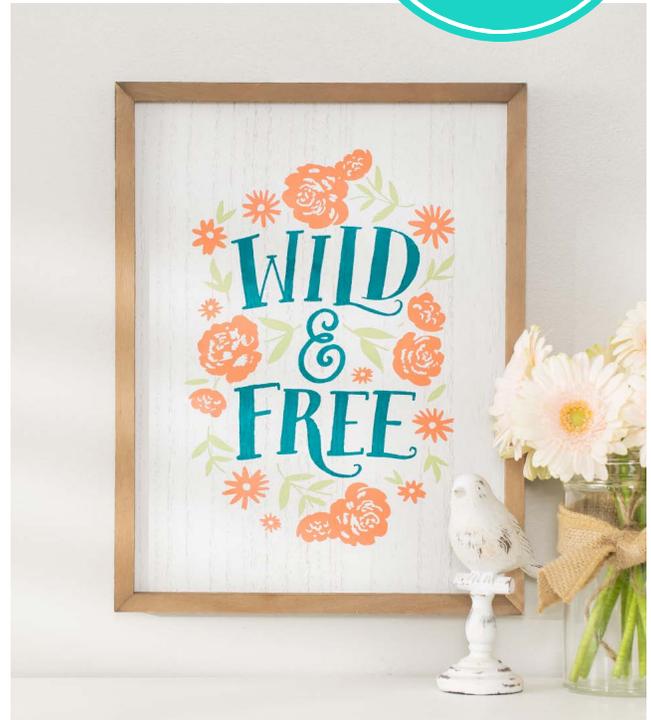

**Guava:** Flowers

**Sage:** Leaves

**Tide:** "Wild & Free" sentiment

### Follow these instructions to complete this project:

1. Remove your Transfer from its packaging.
2. Carefully peel off the Transfer Backer Sheet.
3. "Fuzz" the Transfer by gently pressing it onto a Fuzzing Cloth and carefully pulling it upward to collect a bit of lint (this helps to more easily remove the Transfer from the surface after you've applied the paste). You may wish to repeat this a few times to gentle the adhesive.
4. Position your Transfer on the surface. Smooth out the Transfer to adhere, ensuring there are no bubbles or wrinkles.
5. Knead each Chalkology Paste Single, cut or tear open the top, and squeeze the desired amount onto a Color Tray, using a new tray for each color.
6. Use a small amount of paste on your squeegee or Multi-Tool and smooth it over the Transfer, beginning at the top (see "Color and Placement Suggestions"). To chalk the fine details and small spaces, use a Multi-Tool.
7. As you are working through each detail and color, squeegee the excess paste off as evenly as possible and scrape it back into the tray. The more excess paste you remove, the better the result will be.
8. For best results, use the chalk-and-pull method: Chalk approximately the top third of the Transfer (see "Color and Placement Suggestions"). *Before the paste dries*, pull back the chalked section of the Transfer, leaving the rest of the Transfer adhered to the surface. To prevent any stretching in the Transfer, peel from the center or from both corners, instead of peeling diagonally.

MARCH CLUB COUTURE™ TRANSFER:  
WILD & FREE

9. Let the chalk paste air dry (or use our Quick Dry Tool). Gently lay the Transfer back down over the chalked section. Ensure that the next section is fully adhered, and repeat these steps for the middle portion and the bottom third of the Transfer.
10. Remove your Transfer from the surface and immediately clean the Transfer with cool water (do not let it soak).
11. Dry the Transfer flat with the sticky side up.
12. Once the Transfer is washed and dried, reapply the Transfer Backer Sheet and store flat.
13. Relish your creation!
