

# HOW TO: *Grateful*

## CLUB COUTURE™ PROJECT

RELEASED OCTOBER 2021

### Supplies Included

**Club Couture™ Transfer:** Grateful—October Club Couture

**Chalkology® Paste Singles:** Camel, Papaya, Shimmer Olive

### Other Supplies Needed

**Surface:** Pallet Sign (9" × 12")

**Tools:** Color Trays, Fuzzing Cloth, Mini Squeegee, Multi-Tool

### Color and Placement Suggestions

**Camel:** “very thankful”, “incredibly blessed”, small line details

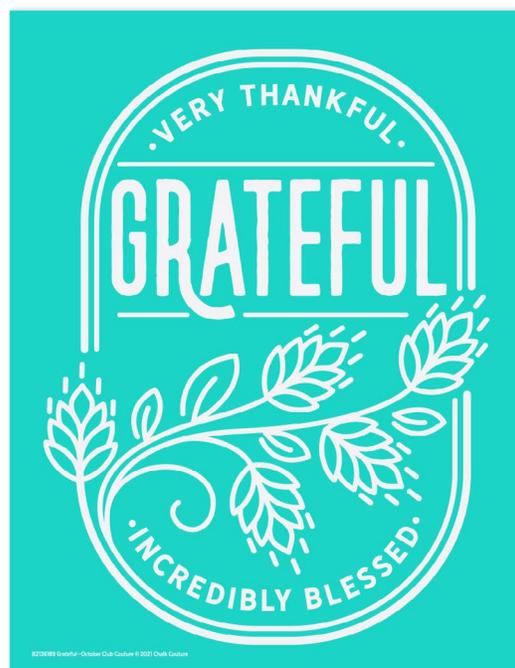

**Papaya:** “grateful” sentiment

**Shimmer Olive:** oval border, wheat stalks

### Follow these instructions to complete this project:

1. Remove your Transfer from its packaging and carefully peel off the Transfer Backer Sheet.
2. “Fuzz” the Transfer by gently pressing onto a Fuzzing Cloth and carefully pulling it upward. This will make the Transfer easier to remove from the surface after you’ve applied the paste.
3. Center the Grateful Transfer on the surface and smooth it out to ensure it has properly adhered and that there are no bubbles or wrinkles.
4. Knead your Chalkology Paste Singles. Cut open the corner of each packet and squeeze the desired amount of paste onto a Color Tray, using a new tray for each color.
5. Beginning from the top, use a small amount of paste to smooth over the Transfer (see “Color and Placement Suggestions”, and keep in mind step 7). Pull the paste inward, toward the middle of the Transfer to avoid mixing Chalk paste colors. Use the Multi-tool to chalk fine details.
6. As you work through each detail and color, use your Mini Squeegee to clear the excess paste off as evenly as possible and scrape it back into the tray. The more excess paste you remove, the better the result will be.

OCTOBER CLUB COUTURE™ TRANSFER:  
GRATEFUL

7. For best results, use the chalk-and-pull method: chalk the top half of the design and peel back only that portion of the Transfer to let the paste dry on the surface before continuing (use the Quick Dry Tool for a fast dry). This allows you to work in smaller sections without having the paste dry in the screen, making the Transfer difficult to remove. To prevent any stretching in the Transfer, peel from the center or from both corners, instead of peeling diagonally.
8. Once the top half of the design is dry, ensure the bottom half of the Transfer is still secure on the surface and repeat steps 5 and 6 for the rest of the design.
9. *Before the paste dries*, remove your Transfer from the surface and immediately clean the Transfer with cool water (*do not let it soak*).
10. Dry the Transfer flat with the sticky side up.
11. Reapply the Transfer Backer Sheet and store flat.
12. Admire your new creation and pat yourself on the back!
